- Size: 160x205mm

DESCRIPTION

Eminent proudly presents this Keith Haring Mousepad. A special designed mouse pad to brighten up your desk- or your laptop.

Keith Haring
Keith Haring was preeminent among the young, artists, filmmakers, performers and musicians whose work responded to urban street culture of the 1980's. He developed a unique visual lexicon. Essential concepts - birth, death, love and war - were conveyed by the simplest of symbols energy, waves, hearts, glowing babies (his most famous life giving symbol) barking dogs, and antic Everyman figures. Haring's imagery was a signature of the era and has become a universally recognized visual language of the 20th century. Click here for more information about Keith Haring.

Keith Haring Foundation
A part of the profit is donated to the Keith Haring foundation. The mission of the Keith Haring Foundation is to sustain, expand and protect the legacy of Keith Haring, his art and his ideals. The Foundation supports non-profit organizations that assist children, as well as organizations involved in education, research and care related to AIDS.
